uncovered

a study on the book of Revelation

*How long, O LORD, must I call for help, but
you do not listen? Or cry out to you,
"Violence!" but you do not save? Why do
you make me look at injustice? Why do
you tolerate wrong?*

*Destruction and violence are before me;
there is strife, and conflict abounds.
Therefore the law is paralyzed, and justice
never prevails. The wicked hem in the
righteous, so that justice is perverted.*

Habakkuk 1:2-4

The woman is
the “Great City”

uncovered

**The beast is the
global empire.**

uncovered

**Their reign is short and
defeat guaranteed.**

uncovered

**They will destroy the
great city in the process.**

uncovered

**The closest thing to
Babylon the world has
ever known (economically)
is The USA.**

If the Chinese were to consume resources at a level that Americans do now, grain consumption per person there would climb from around 600 pounds today to around 2000 pounds needed to sustain a typical western diet. This would equate to 1,352 million tons of grain, equal to two thirds of all the grain harvested in the world in 2004.

<http://www.greenlivingtips.com/articles/185/1/Consumption-statistics.html>

*On average, one American
consumes as much energy as:*

2 Japanese

6 Mexicans

13 Chinese

31 Indians

128 Bangladeshis

307 Tanzanians

370 Ethiopians

Americans eat 815 billion calories of food each day (about 3300 per person).

That's roughly 200 billion more than needed—enough to feed 80 million people at 2500 per person!

If undeveloped countries consumed at the same rate as the US, four complete planets the size of the Earth would be required. People who think that they have a right to such a life are quite mistaken.

One-third of the world's fish catch and more than one-third of the world's total grain output is fed to livestock.

It takes an average of 25 gallons of water to produce a pound of wheat in modern Western farming systems. It takes 5,214 gallons of water to produce a pound of beef.
